

Information for nominating players and entering results

The quickest way into the County Championship web site is using

<https://be.tournamentsoftware.com>

On the left hand side click on Leagues, then click on 2026 from list across the top, scroll down to Masters County Championship 26-27

Log in using the log in button on the top bar

Nominating

To nominate players click on Clubs and select your county, eg Hampshire

Click on teams

Click on required team, eg Hampshire 40

Click on Players, and then click on Add Players.

In filter put in at least 2 letters of surname, highlight required name from drop down list then click Add.

Repeat for all members to be nominated in the squad, then save. Remember a player is only nominated in one squad.

Nominations for all squads should be made before your county's first match or by October 31st, whichever is the earlier.

This must not be used to add players to a team who are playing as a reserve

WARNING The go membership system has changed the county a player represents in a number of cases. If you cannot find a player please contact Margaret (mhoulton@gmail.com) with the players name and number so this can be rectified.

Entering Results

Click on matches on top bar, then on the calendar click on date of the match.

From the list of matches click on your team to get up the match.

From boxes across the bottom click on 'enter rubber results'

For each box click on select player and the players nominated for that team will appear in a drop down list. Click on required name which will then appear in the box.

If name does not appear click on add player. In find player add the name required, from drop down list highlight required player, click add then close. If name does not appear click close, then select unknown(male/female)player from original drop down list.

Mixed should be entered with the lady named first otherwise you will get an error message when the score is inserted.

If you enter an impossible score this will be highlighted.

When finished click on 'check form', this will tell you any errors that will not allow you to save.

Now click 'Save'

If you have any unknown players click on 'Add comment' from boxes across the bottom. Please give the full names of these players and the games they were involved in, eg OD1 and XD2 so I can identify and find the cause of the problem. Remember to save.

If you have a walkover in your match before a shuttle is hit, eg if Hampshire 40's have conceded the game. Under the drop down list for winner click on not played, no player for Hampshire O 40. Enter the score as 21-0, 21-0 for the team receiving the walkover. Please put circumstances in add comment box.

If a player is injured during the match, eg a Hampshire 40 player. Go to the drop down list for winner and click on Hampshire 40 retired. Any points or games won by the defaulting pair shall stand with their opponents being awarded the necessary points and games to win the match.

If you have an under 40 year old playing you may need to click disable scoring validation to enable score to be submitted each time their name appears.
